METAL DOORS FOR COLD ROOM

Negative pressure, hinged or sliding.

OPTIONS

- Vision panel flush on both sides
- Mortised retractable skirting
- Panic bar
- Cylinders
- Lock-opening management panel
- Surface-mounted single door closer
- Surface mounted double door closer
- Time-delayed door closer
- Door-base protection
- Interlocking (see sheet 12)
- Automation

Our selection of high pressure laminates complies with the French standard NF T54/324 (homogenous materials with mechanical characteristics recognised ISO R1183.87).

Our equipment complies with the requirements of GMP/BPF.

The reasons for this choice

- 1 component delivered pre-wired
- 2 good value for money
- 3 highly resistant surface
- 4 anti-rot
- 5 bactericidal
- 6 attractive and practical
- 7 made-to-measure
- 8 fire-resistant door
- 9 wide range of colours
